If you would like to see what your floorcloth will look like in the room where it will exist, send a clear, uncluttered photograph. You can e-mail a digital shot or I can scan a print.

When I receive this completed form I will draw up a floorcloth layout according to the information you've provided me. You will receive this layout and a Commission Agreement (which states the price and the payment terms). If the layout is correct and you'd like to order the floorcloth, just fill out the Commission Agreement and send it back with a deposit of 30% and work on your floorcloth will begin as soon as possible. If you'd like to see another layout, just contact the studio and a revised one will be prepared for you.
